PROFILE

Self-driven web developer with experience delivering real-world projects including e-commerce platforms, restaurant websites, and custom voice assistant tools. Skilled in modern frontend and backend technologies, with a strong focus on problem-solving and client satisfaction.

WORK EXPERIENCE (PROJECTS)

Self-employed — 2025 – Present

- Designed and deployed an e-commerce website for a retail shop (track shorts, uniforms, socks, and more).
- Built and hosted a static website for a local hotel to improve online presence.
- Developed a voice assistant project integrating APIs to assist with kitchen operations.
- Collaborated with clients to gather requirements, deliver solutions, and ensure satisfaction.

PROJECT

E-Commerce Website for Retail Shop
- Built a full-stack e-commerce site with product listings, cart, checkout, and order tracking.
- Technologies: HTML, CSS, Bootstrap, JavaScript, Node.js, Express, MySQL.
- Deployed live for customer access.

Hotel Website (Static)
- Designed and deployed a professional website for a local vegetarian hotel.
- Improved brand visibility and customer trust.
- Technologies: HTML, CSS, Bootstrap, jQuery.

Voice Assistant for Kitchen
- Developed a voice-controlled assistant to help with cooking instructions and kitchen tasks.
- Integrated APIs for dynamic responses.
- Technologies: JavaScript, Node.js, Express.
